The Bunkabin™ **TOILET BLOCK** is an easy-to-connect, flushing WC and hand-washing facility with hot water. Divided into two separate areas, the first has two water flushing toilets, two urinals and three large wash-hand basins. The second area is a private WC with a large wash-hand basin. Hot water is provided by a mains pressurised boiler.

This unit has been designed to meet the legal requirements for the use of up to 60 people of the same gender. Hygienic and easy to clean, the toilet block satisfies the statutory requirements of the Workplace Regulations 1992 (Health, Safety and Welfare), for sanitary and washing facilities. All of our toilet and shower units offer the same high standards you can expect from any of the facilities in the Bunkabin™ range.
